# Petition against Fracking at Great Altcar

| | |
|---|---|
| Petition summary and background | There is a surplus of gas available to the UK even without shale gas exploration and the UK can satisfy its energy requirements using offshore resources and renewables. Shale gas will undermine the country's climate change obligations and harvesting the gas presents unacceptable risks to the environment and the health of local residents and will consume and contaminate freshwater resources. |
| Action petitioned for | We the undersigned urge Lancashire County Council to refuse planning consent to Aurora Energy Resources Ltd. for an exploratory wellsite on the Moss near Great Altcar for the purpose of Fracking (hydraulic fracturing) for shale gas. |
